

## CSCI 4177/5709 — Advanced Topics in Web Development

### Assignment 1 Checklist

REQUIREMENTS		Completed
<b>Group Deliverable</b>		
A1.1	Draft Project's Purpose	
A1.1	Draft Project Goals	
A1.1	Draft Intended features (group members x 2)	
A1.2	Create 2 or 3 user personas for your application	
A1.2	Create 1 scenario per feature (NOT per task)	
A1.3	Create a Sitemap for the Application	
A1.4	Each group member should pick at least 1 feature	
A1.4	Each group member should create at least 1 use case for the feature they chose	
<b>Individual Deliverable</b>		
A1.5	Create 1 task flow diagram for each task in the feature selected in A1.4	
A1.5	Integrate the work you've done individually for A1.5 with the group's deliverable	
A1.6	Choose 1 task flow diagram from A1.5	
A1.6	Create a wireframe for the pages needed based on the task flow selected in A1.5	
A1.6	Integrate the work you've done individually for A1.6 with the group's deliverable	
A1.7	Create semi-functional prototype (front-end only)	
A1.7	Deploy your semi-functional prototype	
A1.12	Ensure your prototype simulates a task from start to end	
A1.12	Ensure prototype applies front-end validation or user feedback (based on chosen task in A1.6)	
A1.13	Update your README file to include GitLab repo link, deployment URL, and code sourcing information	
<b>Submission</b>		
	Check Marking Rubrics to guide you in assessing your work	
	Submit group deliverable to Brightspace	
	Submit individual deliverable to GitLab and Brightspace
